Projects and Management Actions May be Used to Offset Overdraft							
Total Water Use							
Projected Condition	OVER- DRAFT Groundwater	Surface Water					
Sustainable Condition	Projects Sustainable Groundwater Yield	Surface Water					
		- 11					

-	

Projects were reviewed with project proponents using the criteria developed by the Advisory Committee:	
1. Implementability 2. Location / Proximity to Area of Overdraft 3. Cost per Volume Water Savings 4. Environmental Benefit / Impact 5. Disadvantaged Community Benefit 6. Water Quality Impact (Positive or Negative) 7. Affordability	

Preliminary Project Portfolios

 $\label{thm:continuous} \mbox{Goal: Assemble preliminary groupings ("portfolios") of projects that together would offset overdraft at the subbasin scale}$

Process

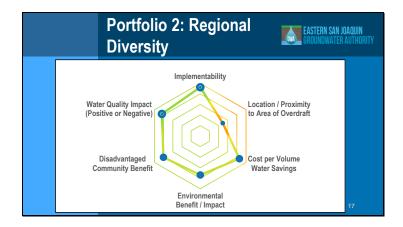

- Initial portfolios were developed around themes discussed by Advisory Committee
- Next Steps
 - Review and discuss strengths and weaknesses of preliminary groupings
 - Identify "hybrid" groupings that better meld the benefits and drawbacks of each portfolio
